

VINTAGE WATER PUMPS

A FEATHER IN THE CAP OF BUGATTI AUTORICAMBI.

Bugatti Classic is a quality brand, established to provide benefit guaranteed by the expertise and knowledge in Bugatti Autoricambi. Bugatti Autoricambi has been designing, manufacturing and marketing water pumps for cars and light commercial vehicles since 1972. Internationally acclaimed, Bugatti is one of the leading water pump manufacturers in Italy and Europe. Part of Metelli Group since 2017, it has its own production unit based in the province of Brescia with 24,000 m². From design to the finished product, components are produced in their specialised foundry by a team of skilled experts.

 Bugatti

BUGATTI CLASSIC. THE CLASSICS NEVER GO OUT OF STYLE.

Our passion and our work for cars is the true meaning of our history. Bugatti Classic offers a wide range of products dedicated to classic cars.

If you want to keep the original heart of your car's engine beating, Bugatti Classic, thanks to our team of experts who still apply their artistry in one of the company's dedicated departments, allows you to revamp or even faithfully rebuild your classic water pump improving it even further.

THE BUGATTI CLASSIC OFFER IN A NUTSHELL.

STOCK AVAILABILITY

Availability of spare parts for vintage cars in stock.

RETYLING

Complete reconditioning of old water pumps.

REMAKING

Vintage car water pump renovations from scratch.

STOCK AVAILABILITY: VINTAGE CAR SPARE PARTS SERVICE.

For the majority of vintage cars, we often have spare parts in stock. Check the code and availability by consulting our catalogues, our website search engine or by contacting our local distributors.

RESTYLING OUR RECONDITIONING SERVICE FOR YOUR VINTAGE WATER PUMP.

If your classic car uses a water pump that is not of our usual production range and it is still in good condition, you were looking for our service. Leave your old water pump with us and, after analysed it carefully, we will completely recondition it. Our technicians will thoroughly observe all the pre-processing quality procedures: they will check replace or recondition the broken, worn out or damaged components for ensuring its proper functioning.

If you would like this service, please ask our local distributor who will be able to give you all the information you need, or contact us directly through our website: www.bugattiautoricambi.com

BEFORE RECONDITIONING

The picture shows the water pump before our intervention, where the bearing and the mechanical seal are damaged and with a significant amount of rust.

AFTER RECONDITIONING

The bearing and the mechanical seal have been replaced with completely new components. The aesthetic touch-up is followed by a functional test and, of course, a careful check of the seal.

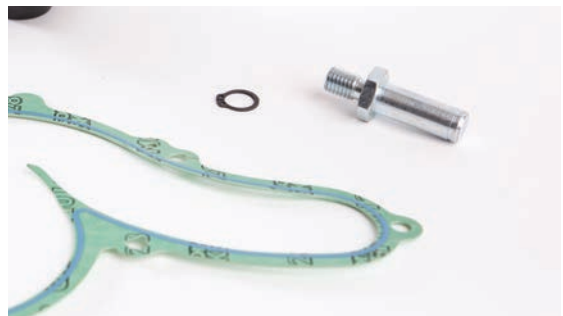

REMAKING A NEW HEART FOR A MASERATI BITURBO COURTESY OF BUGATTI CLASSIC.

The Remaking service involves the faithful reconstruction of water pumps for vintage cars. Here, as a practical example, is what we have created for a genuine classic car: a water pump for the iconic Maserati Biturbo, completely new – and comparing it to the original improved even further. Tailor-made with quality and true passion. A piece that was analysed, developed and produced in collaboration with the client, an authorised Maserati garage, which has been operating in the automobile sector with passion, determination and professionalism for over 40 years.

NOTHING IS LEFT TO CHANCE.

A well-done job is often characterised by the finest details. We can customise your water pumps with your logo, giving you an extra benefit and maximising the image of quality.
